Materials

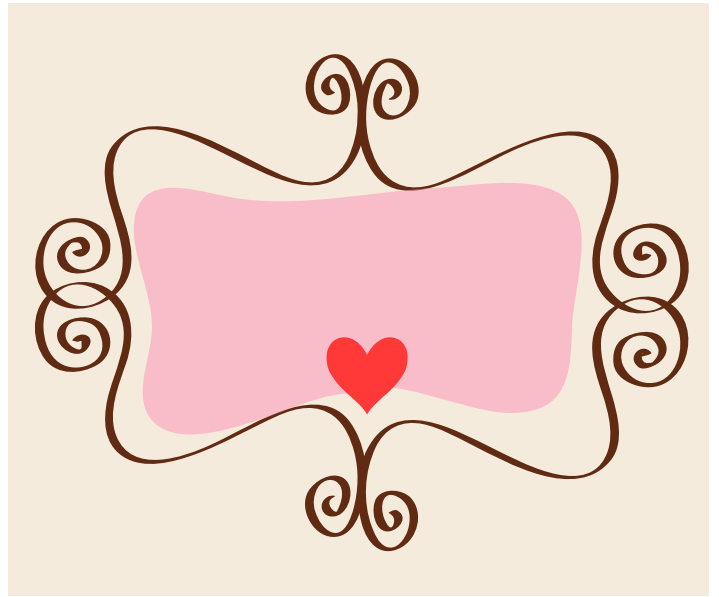

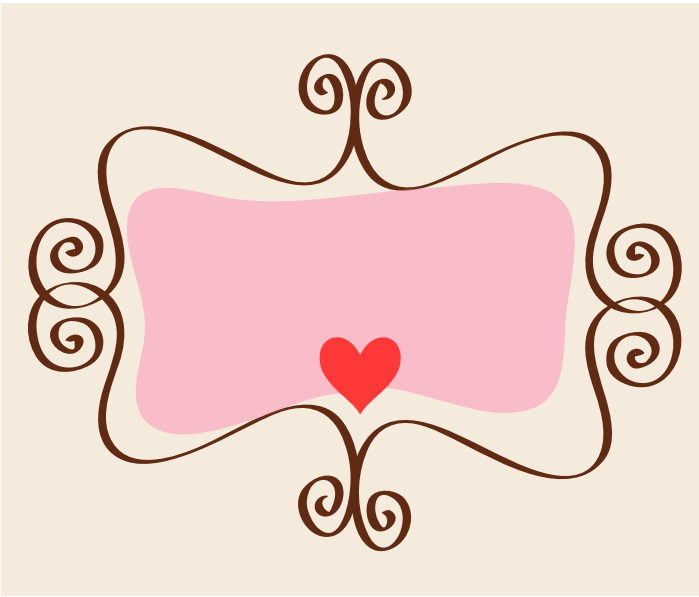

- Paper of your choice, including label paper for making fun stickers! Otherwise, buy card stock paper available at any arts and crafts store or office supply store. Buy the cardstock in letterhead (8.5" x 11") size.
TIP: You can try using cardstock with a subtle texture like linen, or canvas, etc., for a different look. You may even try light cream cardstock if you wish.
- Any of the following for cutting: Scissors | paper cutter | x-acto knife and straight edge
- Printed PDF files of this kit on card stock paper. **TIP: Set your printer to maximum quality and print desired pages of kit.** You also have the option of taking your PDF files to your local office supply store for printing of your pages there.

Caution

Always remember to supervise children when they handle scissors--you may want to help them cut. And NEVER let children use an x-acto knife!
